EXPERIENCE

IoT Internship

DLK Software Solutions

06/2026 - 07/2026 Vadapalan, Chennai

- Completed a 15-day internship at DLK Software Solutions, where I gained hands-on experience in Internet of Things (IoT) concepts, sensor interfacing, microcontroller programming, and real-time IoT applications
- The internship enhanced my practical skills in embedded systems, IoT development, and problem-solving

EDUCATION

B.E-Electronics Engineering VLSI (design & technology)

RMK College of Engineering and Technology

09/2025 - Present

CGPA

8.53 / 10.00

HSC in Computer Science with Mathematics

Bharathidasan Matriculation Higher Secondary School, Tiruvallur

07/2023 - 05/2025

Percentage

84.5 / 100.0

PROJECTS

Solar Powered Automatic Street Lighting System using Arduino

01/2026 - 05/2026

- Solar Powered Automatic Street Lighting System using Arduino Uno R3
- The system uses an LDR sensor to detect day and night conditions automatically
- During daytime, the battery charges using solar energy and LEDs remain OFF
- During nighttime, the Arduino turns ON 3 LEDs automatically for smart lighting

SUMMARY

I am a VLSI (Design and Technology) student with a strong interest in digital electronics, Verilog, FPGA design, and semiconductor technology. I enjoy learning new technologies, solving technical problems, and improving my programming skills. I am eager to gain practical experience and contribute to innovative VLSI and embedded systems projects while continuously expanding my knowledge

SKILLS

C++ Arduino Verilog

Internet of Things (IoT)

Problem Solving Communication

Microsoft Word

Microsoft PowerPoint

Signals and Signals

Digital Electronics

LANGUAGES

English

Fluent

Tamil

Native

Telugu

Fluent

KEY ACHIEVEMENTS

CODEATHON 4.0, CSE & CSBS of Prathyusha Engineering College

Special Prize – Codeathon 4.0 Awarded the Special Prize at Codeathon 4.0, conducted by Prathyusha Engineering College, for demonstrating excellent programming, problem-solving, and teamwork skills
